

# ORGANIC DIGESTER-PLUS

## ACTIVE INGREDIENTS:

1.5% of Humic acid derived from compost. **Organic DIGESTER-PLUS** is a stable, liquid concentrate of organic compounds. This product contains an organic material that may enhance or increase micro nutrient uptake. The organic acid contained in **Organic DIGESTER-PLUS** is derived from composted products. The ingredients in these products are natural in our environment and are NOT genetically engineered.

## STORAGE INSTRUCTIONS:

**Organic DIGESTER-PLUS** is packaged in a stable form. **Organic DIGESTER-PLUS MUST BE stored out of direct sunlight.** Ideal temperature for storage is between 50° and 86° F. Mix well before use. **FAILURE TO FOLLOW THE ABOVE REDUCES THE EFFECTIVENESS OF THIS PRODUCT.**

## CAUTION:

KEEP OUT OF REACH OF CHILDREN and PETS. **Organic DIGESTER-PLUS** is non-toxic and non-hazardous to humans, plants, animals, fish and wildlife. In case of eye or skin contact, rinse with water. If redness appears or irritation occurs, contact a physician.

## NOTICE TO BUYER:

The manufacturer and seller of this product make no representation of a warranty; expressed or implied, concerning the suitability of this product or any use other than described on this label. Buyer and user acknowledge and assume all liability resulting from use or handling inconsistent with these label instructions. Timing, method of application weather, crop conditions and other factors are beyond the control of the seller.

## A Natural Soil Amendment & Organic Matter Digester

## RATE:

Ask your distributor for accurate application information.

## APPLICATION METHODS:

**Organic DIGESTER-PLUS** may be applied using several methods: treat the seeds or transplants by spraying on the soil or foliage followed by mechanical incorporation or sprinkler irrigation. **Organic DIGESTER-PLUS** may also be applied through flood, tape, drip, and micro or impact sprinklers. Do not use chlorinated water as a carrier when mixing or applying **Organic DIGESTER-PLUS**. Do not apply any product containing chloride before, during, or after the application of **Organic DIGESTER-PLUS**.

## USAGE:

- **CROP:** Apply in the spring with first cultivation or irrigation, **prior to the crop's reproductive cycle or post-harvest** by boom spray on crop residue followed by **immediately incorporating it at least 1/4" under the soil so the sun's UV rays do not kill the bacteria** in the product.
- **MANURE TREATMENT:** For hog barns, lagoons or other manure treatments see your distributor.
- **COMPOST:** See your distributor.

## COMPATIBILITY:

**Do not mix Organic DIGESTER-PLUS** with herbicides, fertilizers, pesticides, or fungicides. **MOST PRODUCTS are NOT COMPATABLE WITH Organic DIGESTER-PLUS.** Do not mix with products with a pH below 4 or a pH above 9. Mixing outside this range will cause a decrease in the effectiveness of the bacteria in this product.
