## Organic Digester-Plus Featured Testimonial

Dr. Herbert Brewer has been using Organic Digester-Plus for 2 years on his Mississippi pasture and garden.

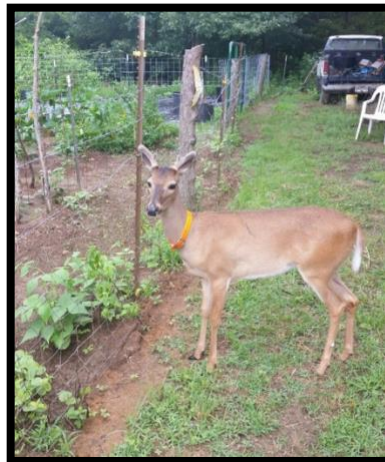

Treated vs. Untreated Field

The difference between the untreated (left) and treated (right) sections is easily visible.

---

Soil Restoration LLC's mission is to develop and market products that restore the soil's nutritional balance thereby improving the quality of human health.

### An Attractive Garden

"This deer's mouth is watering to get into my garden and plants after using Soil Restoration's ODP!" - Dr. Brewer

# SOIL RESTORATION DIGEST

## ODP Highlight: Healthy Trees

Estellita Bellerand in Alberta, Canada has experienced success with ODP as well. Pictured below is part of one of the Mango Starch (native to Trinidad and Tobago, also known as Starch Mango) mango trees she is growing in Florida.

From one leaf to dozens of mangoes!

While not pictured here, some of the mangoes have fallen as the tree was unable to carry so many.

**“This product works 1000%!”**

**- Estellita**

## International News

New Zealander Clive Breeds is a long-time, charter member distributor. He owns and manages Biomagic NZ with his son Stewart. The Breeds - Clive, his beautiful wife Gloria, and sons Stewart and Clayton - are truly an international family! They have sailed and traveled the world together and have also had successes in the UK.

Cheers to you and your family, Clive!
