

# Dosage Recommendations

## Soil Restoration Product Summary

Below is a list of suggested dosages for the use of Soil Restoration products.

Please note that the amounts may vary based upon specific conditions. For first time application, consider using up to double the dosage in the chart below (e.g., apply 32 ounces per acre of crop instead of 16 ounces).

### Organic DIGESTER-PLUS & Organic BOOST

Use	Amount	Per
Crops & Livestock Pastures	16 ounces	1 acre
Trees, Shrubs, & Vines	16 ounces	1 acre
Cellulose Digestion (Field Trash)	16 ounces	1 acre
Composting	1 quart 3 ounces	50 yards 1 ton
Dairy Barn Pits, Lagoons, & Slurry Tanks	5 gallons	1 million gallons
Poultry Barns	32 ounces	Acre-sized barn
Farm Ponds (Safe for Fish)	5 gallons	1 million gallons
City Sewage Evaporation Ponds	5 gallons	1 million gallons
Septic Tanks	8 ounces	1,000 gallons
